

LHS-Series Screen Filter

The LHS-Series, made entirely of stainless steel, ensures durability and long-lasting performance across various applications. It efficiently removes up to **25% solids** from water and low-viscosity liquids.

The LHS-Series is a self-cleaning, stationary strainer commonly used as the first step in **solid waste removal** and **dewatering**. With no moving parts, it's simple to use and available in various screen sizes, widths, and flow capacities.

Solid waste removal in food production.

Self-Cleaning Features

- Stainless Steel Wedge Wire Screen
- Flow-Engineered Housing
- Convenient Solids Discharge Chute
- Optional Screen Impactor or Spray Bars
- Stainless Steel Housing
- Industrial units up to 60" wide
- Multiple units can be manifolded

Typical Applications

- Solid Waste Removal
- Industrial Solids Separation & Recovery
- Fruit & Vegetable Processing
- Pulp and Paper Mills
- Dairy Processing
- Commercial Nurseries
- Animal Waste Processing
- Food Processing
- Site Remediation
- Mining

Model LHS-60

Outlet port (Bottom View).

Inlet & Flush ports (Rear View).

Stainless steel wedge wire screen.

Dimensions *Measurements in Inches

*Shown above LHS-60

MODEL	A	B	C	D	E	F	G	H	I	J	K	WT/LBS
LHS-20	31.0	7.2	7.2	9.0	10.2	10.2	8.0	5.0	3.0	4.0	2.0	150

Construction

DETAILS

HOUSING — 304 Stainless Steel / 316L Stainless Steel (optional)

SCREEN — Stainless Steel 304 Profile Wire Screen

Features

DETAILS

- Screen Impact for Heavy Loading Conditions
- Multiple Unit Manifolds Together (w/wo screw conveyor) for High Flows
- Protective Cover
- Spray Bars with Nozzles
- Sump for Collection of Filtered Water
